Notice for 2015 annual conference (Fuzhou) of Chinese Association of Quantitative Economics

1. Notice for participants who submit papers to obey:

2015 annual conference (Fuzhou) of Chinese Association of Quantitative Economics will be divided into ten discussion groups. Each group leader (chairman in branch field) is responsible to evaluate and award papers. Scholars and graduate students who are ready to attend the annual conference need to pay attention to the following notices:

- 1) Choose the specific group according to content of the paper and send electronic edition of paper to mailbox that each group releases from the following schedule.
- 2) Label the group name on the upper right corner of your paper. For instance, Group 1 Theories and Methods of Quantitative Economics (I). **At the same time, you also need to mark word number of your paper.** You can only send one paper to one group.
- 3) Attach brief introduction of the author to the end of the paper, including name, gender, **date of birth**, academic degree, working place, occupation, position and contact way of author (cell phone number and E-mail address).
- 4) Note whether you are member of Chinese Association of Quantitative Economics (CAQE). If your working place is a member of CAQE, all staff and graduate students are members of CAQE.
- 5) Indicate whether you agree that your paper will be collected to public edition of Quantitative Economics in 21st Century (16th volume). Without indication, committee will regard that you have agreed.
- 6) Indicate whether you agree that your paper will be collected to China National Knowledge Infrastructure (CNKI). Without indication, committee will regard that you have agreed. We need to clarify that if your paper is collected to Quantitative Economics in 21st Century or China Proceedings of Conference Full-Text Database, you can still submit to other official journals.
